

SAFETY POLICY

Maintaining safe and secure operations

- **GACL is committed to a strong safety program which protects its staff, property, stakeholders and the public from accidents.**
- **All our employees at every level, including management, are responsible and accountable for the organization's overall safety initiatives.**
- **Management supports participation in all safety programs by all our employees and will provide proper equipment, training and procedures in support of the program. Our employees are responsible for following all procedures, working safely and wherever possible, improving safety measures.**
- **The complete and active participation by everyone, everyday, in every job is necessary for safety among all stakeholders at our airports.**

We will do this by:

- **Consistently seeking to be in line with national legislation, international norms and best practices in safety, guided by regulations, standards and recommended practices of GHANA CIVIL AVIATION AUTHORITY(GCAA) and the INTERNATIONAL CIVIL AVIATION ORGANIZATION (ICAO).**
- **Developing a safety culture amongst all the stakeholders with clear safety accountabilities and responsibilities, appropriate training, increased safety awareness and a conducive environment to constantly learn and improve on safety.**
- **Ensuring that systems, equipment and infrastructure meet appropriate safety standards and contribute towards organizational safety.**

Thank you for your co-operation.
