Travel And Security Tips

Additional Tips For Travellers

Sporting Equipment

Fertilizers used on many golf courses can trigger explosive trace detection equipment. Before flying, clean golf clubs. Skis must be treated as checked luggage.

Scuba tanks are not allowed on commercial airlines. Ship scuba tank or consider renting a tank at your destination. Fishing tackle and sporting equipment must be checked in.

Campers with gas containers for grills or stoves must ship the containers separately because they cannot be checked in.

Some Screening Policies

Passengers are required to remove their shoes, belts and divest items that may interfere with the walkthrough metal detector.

Procedures for travelling with Children

Passengers are advised to check with their Paediatrician before travelling with their baby.

Speak to your airline

Arrangements for travelling with children differ from airline to airline. Always check with your airline before travelling with an infant.

Allow extra time

When traveling with children, please allow extra time for check-in and other departure formalities.

Security Screening

Children, including babies are required to undergo screening at the airport. If your child can walk unassisted, it would be best to have the child walk through the metal detector independently.

Unaccompanied Minors

Parents are advised to contact the airline for the necessary procedures.

Security rules for hand luggage

You may have heard of LAGs but what exactly is it?

The LAGs stands for Liquids, Aerosols and Gels and refers to new international safety regulations that limit the quantity of these items allowed in hand luggage on international flights. The new rules mean a little more screening is needed but they are for the safety of all international flights.

If a passenger intends to pack any creams, toothpaste, drinks, gel, shampoo, mascara, perfumes, shaving foam, deodorants, sprays, lotions, oils, soups, solutions, syrups in their luggage, they need to remember the following:

1. Fill it

✓ Liquids, Aerosols and Gels in hand luggage must be in containers of maximum 100ml.

2. Bag it

✓ Passengers must store them in this transparent, resealable bag. Total bag capacity must be maximum 1litre.
Only 1 bag per passenger.

3. Carry on

✓ Passengers should be prepared before they check in by having their bag out at the Security check.

✗ If passenger has failed to pack any belongings that do not comply with the new rules in their check-in luggage, these belongings will be confiscated at the Security check.

✗ No containers over 100ml in hand luggage, even if they are partially filled.

✓ Baby formula and food as well as medication carried on-board need not be in a LAGs bag but passengers must remember to show them to Security. If carrying medication, passengers may need to produce their prescription.

✓ The best news for passengers is that, duty-free items can still be carried onto the plane. The items and proof of purchase slip will be sealed in a special Duty-free bag, the seal of which should not be broken before arriving at their final destination.

Additional tips

International Passengers

Passengers are kindly advised to take note of the following information to ensure a smooth facilitation at the airport.

1. Departing passengers are expected to arrive at the airport not later than three (3) hours before departure.

2. Airlines' allow each passenger one carry on and one personal item the size of a lady's bag or a computer bag. Kindly contact your airline for further passenger luggage instructions.

3. Passengers who arrive at the airport with more bags than allowed for check-in will be charged for the extra bags.

4. GCAA/ICAO Regulations prohibit the carrying of liquids and aerosols in carry-on bags.

5. While drop offs are allowed at the frontage of the departure terminal, pickups are only allowed at the various car parks (P1, P3 and P4). All offenders will be fined.

6. Kindly demand receipt for all payments made at the airport.

7. Extortion of any form is strictly prohibited at the airport. Please report any airport staff who demands money for any service rendered without issuing an official receipt to **030 2550 612 Ext 2358.**

8. The use of trolleys are free at the airport. However, passengers are not allowed to push trolleys beyond indicated boundaries.

9. Physical or verbal assault of any airline or airport staff is strictly prohibited and could result in prosecution.

Frequently Asked Questions (FAQs)

1. Which terminal am I flying from?

For International travels	-	Terminal 3
For Domestic travels	-	Terminal 2

2. How do I avoid the queues at check-in?

Self-service check-in kiosks are available in the terminal, enabling you to avoid the queues and check-in. Some airlines do not offer self-check-in, so please check with your airline or customer service agents.

3. What is the best time to arrive at the airport when travelling?

Check-in times vary from airline to airline and are usually indicated on the ticket at the time of purchase. It is advisable to arrive in good time to complete departure formalities.

4. How do I connect between terminals 1, 2 and 3?

Shuttle services are available to transport passengers to and from Terminals 2 and 3.

5. How do I report lost luggage?

Make a report at the "lost luggage" desk inside the arrival hall and fill a form to initiate the search.

6. How do I manage my tampered luggage?

Passengers who suspect any acts of tampering are advised to immediately lodge a complaint with the airline or its handler before exiting the airport.

7. What facilities are available for nursing mothers and children?

There is a baby care room and a children's play area at the departure concourse.

8. Does the airport have reduced mobility facilities?

Yes, the airport has such facilities.

Frequently Asked Questions (FAQs)

9. Is there a Clinic or Pharmacy at T3?
There is a Clinic located at the departure terminal and the Pharmacy is at the departure concourse.

10. Are there smoking areas inside the terminal?
The terminal is a strictly "NO SMOKING" area.

11. Where do I park whiles waiting to pick up a passenger?
Passenger pickups, waiting and parking are allowed at the car parks.

12. Is there a prayer room or ablution setup at the new terminal 3?
Yes, the prayer and ablutions rooms are located at the departure concourse.

13. I want to drop off a relative at the airport.
Drop-offs are allowed at departures.

14. Are expectant mothers supposed to go through screening?
Yes, expectant mothers are required to undergo screening at the central screening point unless otherwise advised by a Medical Doctor. The metal detectors generate a low-frequency magnetic field to detect metallic objects. The radiation that is generated is comparable to common household devices or other electronic devices making it harmless.

15. Is there internet access at the airport?
Yes, there is free Wifi in Terminal 3. Simply connect to "KIA free Wifi".

About Ghana

Ghana, located on the West Coast of Africa and sharing boundaries with Togo to the East, La Cote D'Ivoire to the West, Burkina Faso to the North and the Gulf of Guinea to the South, has one of the most thriving democracies on the continent.

The discovery of oil in the Western Region is poised to change the future fortunes of Ghana.

In 1957, Ghana (formerly known as the Gold Coast) became the first country in sub-Saharan Africa to gain independence.

The national flag (Red, Yellow, Green and a black star) was designed to take into account the struggles of our forefathers in the run-up to attaining independence. It also signifies the national heritage, the nation's natural wealth and treasures. Designed by Mrs. Theodocia Okoh, the colors have the following meaning:

Red: Blood spilled in the independence struggle.

Yellow: Represents Ghana's mineral wealth.

Green: Encompasses our rich vegetation.

Black Star: Encapsulates the hope of black Africans.

About Ghana

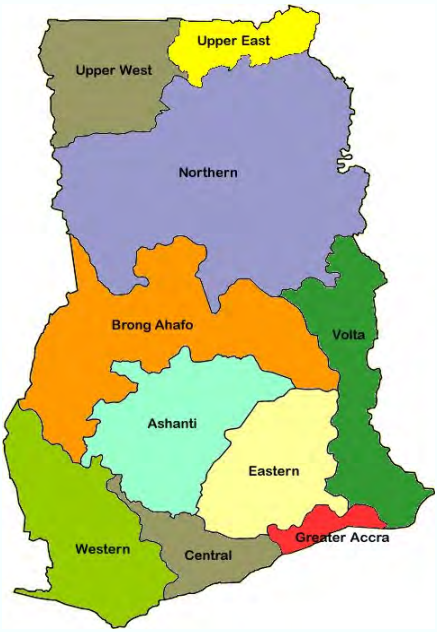

Visas: Ghana now allows citizens of AU Member States to enter Ghana and obtain visas on arrival with the option to stay for up to thirty days and experience what our country has to offer.

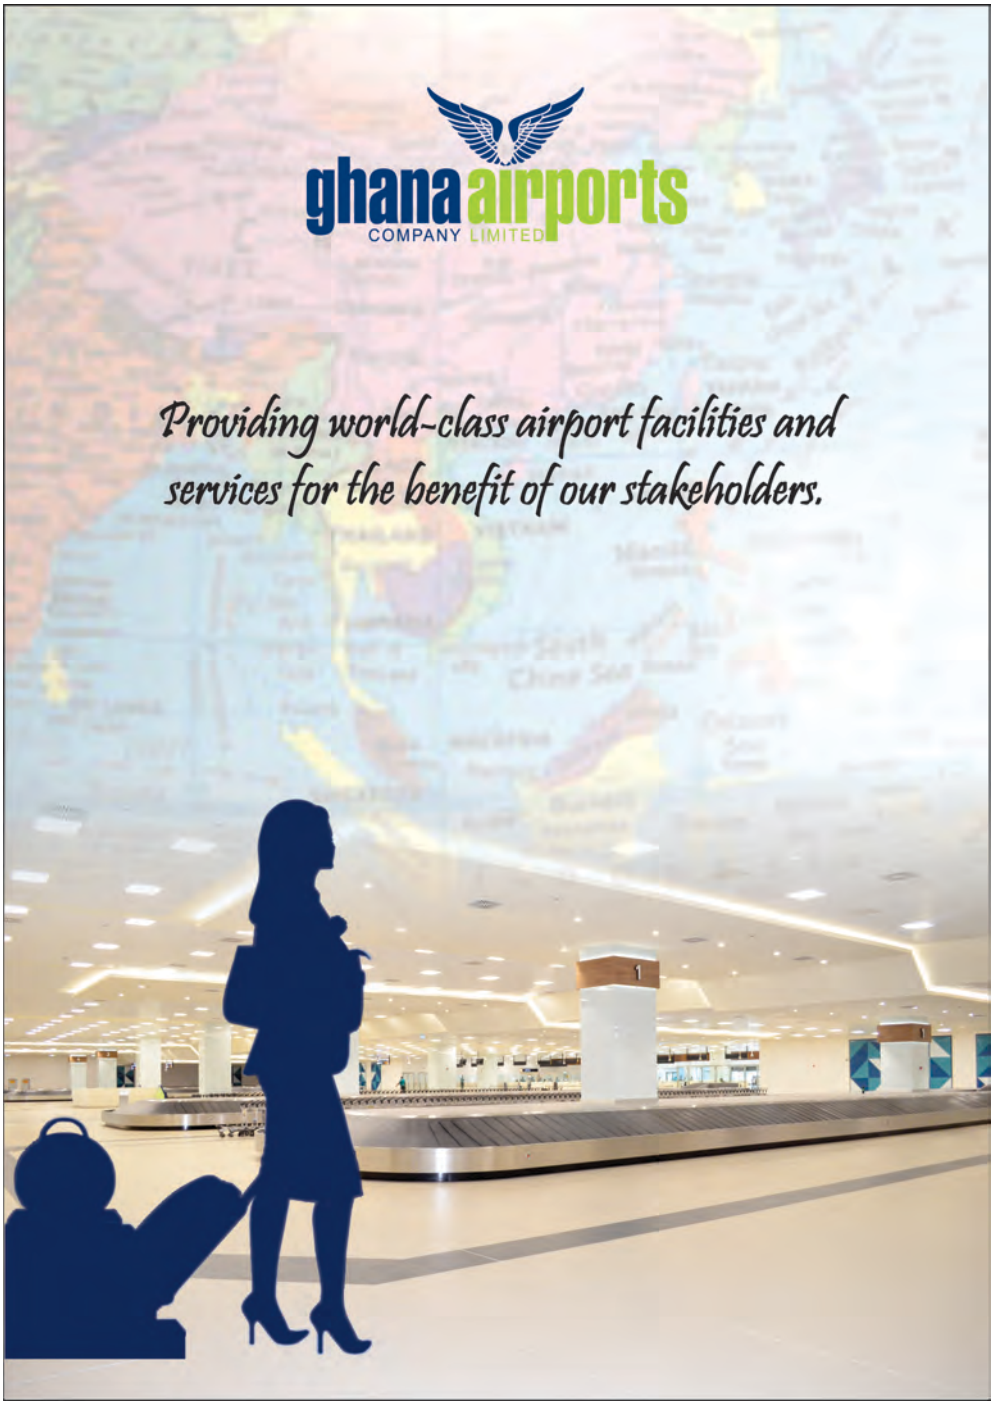

Climate: Whereas rainy season in the southern part of Ghana starts from April to June, the Northern part of Ghana experiences rainy season from April to October.

Communication: Telephone (landlines) and mobile phones abound in Ghana. Additionally, internet/email services are found in all major towns and hotels.

Driving: Ghana drives on the right and a current international driving license is required. Drivers bringing vehicles into the country require a carnet de passage and international insurance. Petrol and diesel are sold in litres.

Sports: Football (soccer) and boxing are arguably the most dominant sporting disciplines in Ghana and the Back Stars is our flagship national football team. These disciplines have and continue to bring the world's attention to Ghana. Boxing is a popular sport along the coastline and dominated by locals around Bukom, James Town and Chorkor. Boxers like D.K. Poison, Azumah Nelson and Ike Quartey have all represented and graced the world stage with their talent. Soccer has also produced notable footballers like Abedi "Pele" Ayew, Anthony Yeboah, Osei Kuffour and Stephen Appiah.
